

Now's the time to plan for retirement.

Start saving for a better tomorrow with a 401(k).

Take Control of Your Future

You deserve to feel financially secure. TheKey's 401(k) is a retirement savings plan that'll help you get there. To participate, you simply need to have 6 months of service. After this eligibility period, contributions to the 401(k) can begin immediately.

Ready to get started?

Follow the instructions [here](#) and sign up for your account.

Contribute and Watch Your Nest Egg Grow

You have choices! Allocate your 401(k) contribution depending on your needs.

Traditional 401(k): Worry about taxes later. Your contributions are deducted from your paycheck pre-tax and may lower your current income tax bill. You only pay income taxes when you make a withdrawal.*

Roth 401(k): Pay taxes on contributions now and enjoy tax-free withdrawals when you retire.*

Save More with 401(k) Matching

TheKey offers a dollar for dollar match on the first 3% of your compensation**, \$0.50 on the dollar for the next 2%, so you can reach your savings goals faster. Contribute at least 5% of your paycheck to max out the full 4% 401(k) match. Matching contributions are immediately vested. That means free money that you definitely don't want to pass up on.

Plan Details to Know

This plan features hardship withdrawals, 401(k) loans and in-service distributions at age 59½.
