

ComPsych® Huddles

Everyone's journey is different. This is especially true when it comes to each person's individual health and well-being goals. While some might choose guided digital self-serve tools and resources, others might find live engagement or peer support beneficial to their well-being journey. And that's what ComPsych® Huddles are all about.

ComPsych® Huddles are interactive virtual groups focused on psychoeducation, skill building and peer connection. They provide a space for participants to learn and grow in while addressing topics meaningful to their own self-selected journey. Participants can simply view the calendar of upcoming Huddles on GuidanceResources® Online/GuidanceNowSM app and self-register for topics that resonate with them. Huddles includes a range of 30- to 50-minute well-being topics focused on self-care, skill building, and resiliency, such as:

- Self-Care and Resiliency
- Everyday Mindfulness
- Relaxation Techniques
- Improving Sleep
- Nutrition 101
- Personalize Your Physical Activity
- Mood Management
- And more

Led by our highly experienced staff of licensed counselors and certified well-being coaches, participants will learn key information on the topic and then are invited to engage in a discussion and share their experiences and even helpful tips with peers. When appropriate, the Huddles leader will facilitate live skill-building practices and exercises.

Everyone's journey is different. We're here to help you on yours.
